Quick tips for creating a dining room ready for entertaining

By Sherry Moeller

While there are tried-and-true ways for making a dining room feel cozy, such as mixing warm lighting, soft chairs and inviting walls, according to Tracy Morris of Tracy Morris Design, there are also quick tips for creating a festive dining atmosphere when gathering with family and friends during the holidays.

Tracy, along with Kelley Proxmire of Kelley Proxmire, Inc. and Michael Winn of Winn Design + Build, offer some easy ways, and share a few favorite photos, to make the holiday meal extra special.

- To create a festive dining room, hang fresh, unadorned wreaths on the windows.
- Place seasonal fruit in the center in a decorative bowl.
- Display vintage candlesticks with coordinating candles, along with heirloom silverware.
- Consider adding a special gift for guests at place settings.
